VIRGINIA

STATE-MANDATED CME CONTENT REQUIREMENTS

CME Requirements At-A-Glance

Renewal Cycle:

[Biennial based on DOB](#)

State-Mandated CME Requirements:

- [60 CME every two-year renewal cycle](#)
- [Minimum of 30 Category 1](#)
- [2 Controlled Substances](#)

State-Mandated CME Content Detail

In order to renew an active license biennially, a practitioner shall attest to completion of at least 60 hours of continuing learning activities within the two years immediately preceding renewal. A minimum of 30 of the 60 hours shall be in Type 1 activities or courses offered by an accredited sponsor or organization sanctioned by the profession. Licensees with prescriptive authority must complete 2 hours of continuing education (CE) in pain management, proper prescribing of controlled substances, and the diagnosis and management of addiction every two-year renewal cycle. The Board has developed a package of activities that will satisfy the requirement for 2 hours of Type 1 CE for renewal in 2019-2020. Licensees who do not wish to use the Board's 2-hour package for their opioid CE are responsible for finding Type 1 activities that relate to pain management, proper prescribing of controlled substances, and the diagnosis and management of addiction. Physicians are advised to confirm Virginia's current requirements with Virginia's

<https://www.dhp.virginia.gov/Boards/Medicine/PractitionerResources/ContinuingEducation/Medicine/>Board of Medicine.
